# A Kitchen *that* pops!

We asked lifestyle blogger and HGTV Magazine Style Set member Ashley Wilson of @athomewithashley to share her love of happy hues and design tips for an inspired kitchen space.

### Retro Flair

Colorful appliances bring in a retro 1950s vibe. Go soft with the color since paler shades can be easier to live with long term.

### Paint it Pretty

Paint is a clever way to bring visual interest into the kitchen. The lower cabinets are a soft pink, which balances out all the blue. If I ever tire of them, I can easily change them to a fresh hue.

### Smart & Stylish

Have fun with functional decor! I have open shelving where I organize my cookbooks and cute dishes. They add a pop of color to the space and aren't a big commitment color-wise.

### Transform with Trash

Pay attention to the details. Even your garbage bags can coordinate! **Glad's ForceFlexPlus Beachside Breeze Bags** are the prettiest blue and have a long-lasting scent. I love knowing the kitchen will smell amazing, especially when entertaining.
